

Eco-Smart Food Waste Dryer - ES300L

The Eco-Smart Food Waste Dryer dries all types of food waste, whether kitchen preparation waste, post-consumer waste or other types of mixed food production waste overnight, reducing its volume and weight by 80 - 95%, eliminating bacteria and smells.

A nasty, smelly waste stream can be reduced substantially in volume and weight in a matter of a few hours and turned into a sterile, dry, clean, manageable granulated powder which can be composted, sent for anaerobic digestion or burned in waste-to-energy plants.

Benefits

Up to 95% reduction in waste volumes, weights and disposal costs

No food waste down the drain

All food waste types accepted

Eliminate risks from vermin, pests and smells

Simple 'plug and play' solution

No more blocked drains
